

LLED8000-LDS PRODUCT LAUNCH FEBRUARY 2020

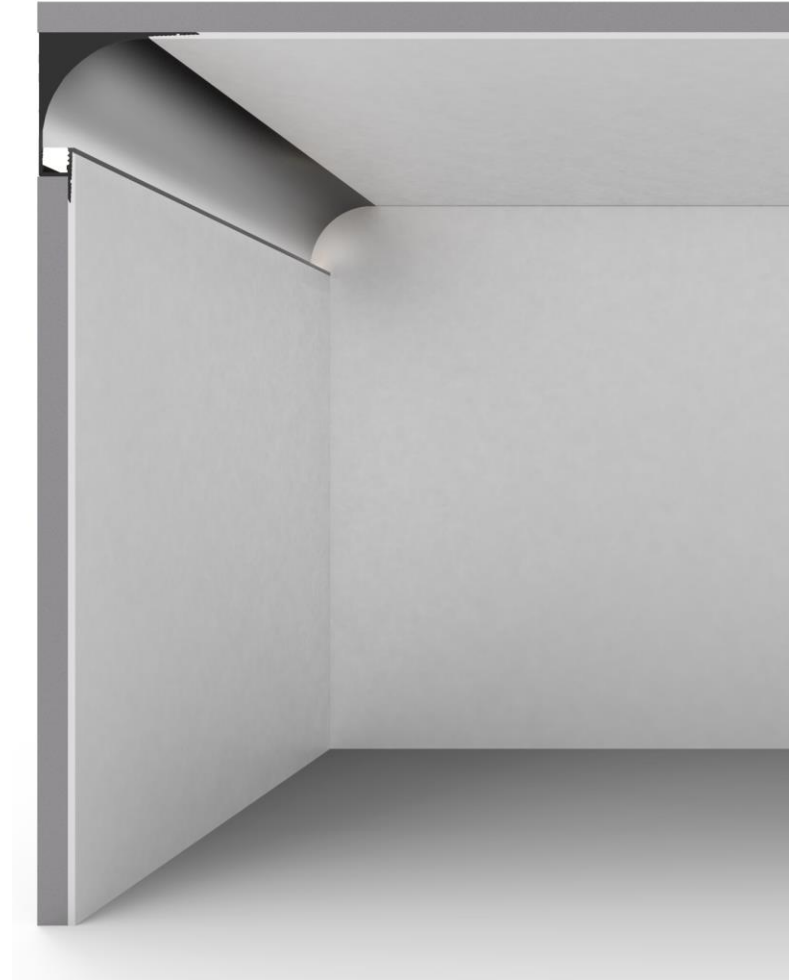

THE ALL NEW LLED8000-LDS

CALI proudly introduces LLED8000-LDS to the *lip*LEDs Series. LLED8000-LDS is a slim profile ceiling mud-in solution designed to refine your cove design seamlessly integrating with two adjoining surfaces.

LLED8000-LDS has a unique 0-10V dimming capability and performs at very high output. LLED8000-LDS has an impressive Color Rendering Index greater than 95.

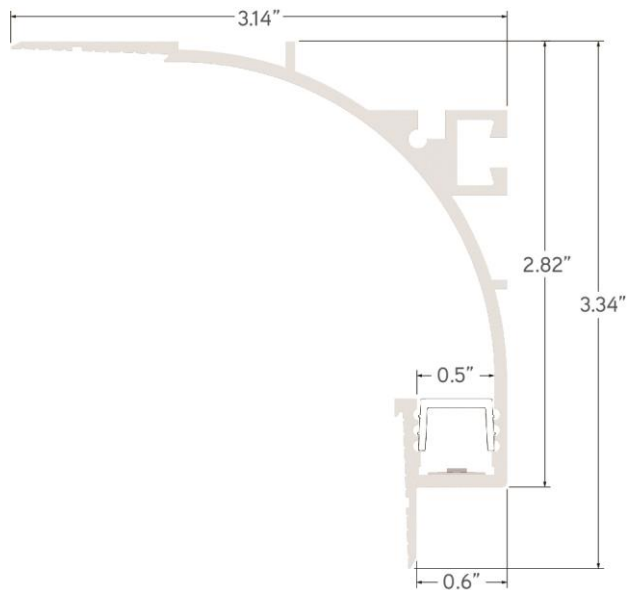

LLED8000-LDS presents innovative features:

- Slim profile mud-in extrusion
- Beautiful ambient lighting
- Mud-in options for lighting direction from ceiling to wall or wall to ceiling
- Dry and damp location

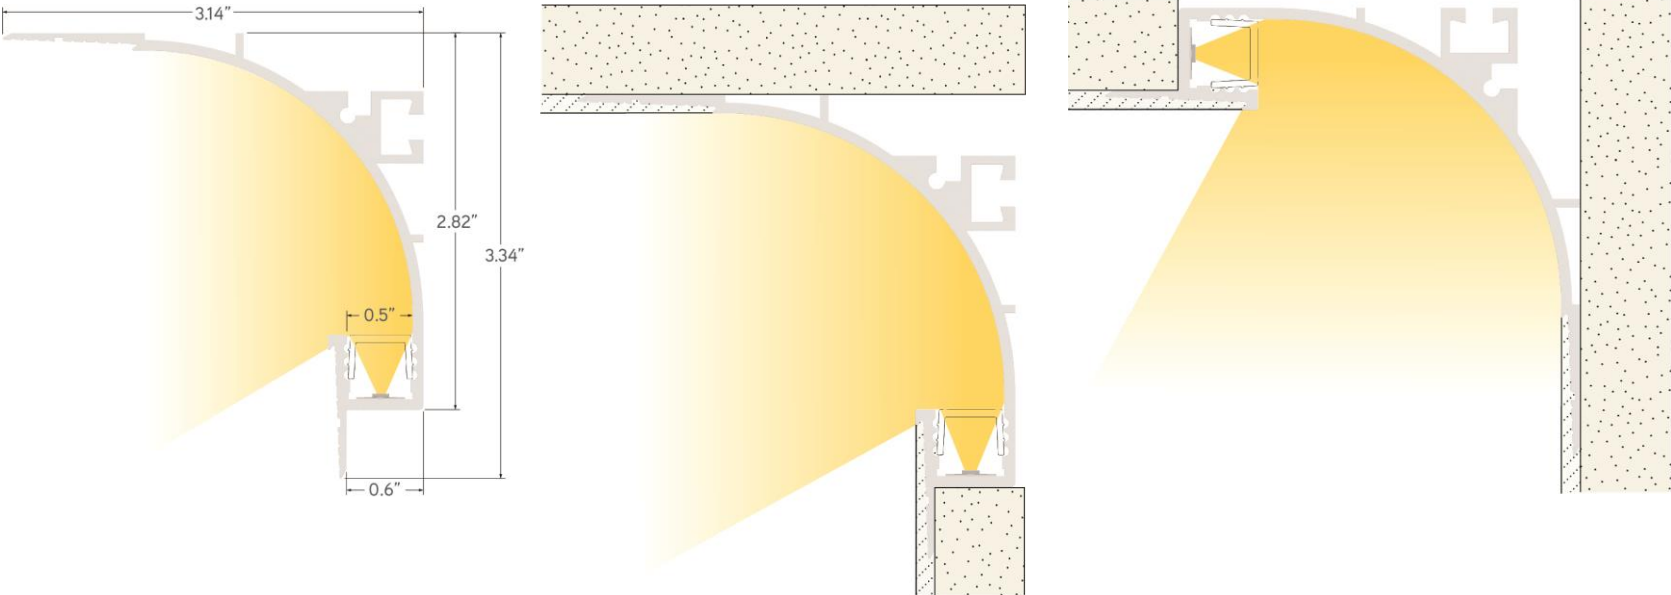

SLIM PROFILE

LLED8000-LDS offers a slim profile extrusion that extends the multitude of installation capabilities in numerous types of cove designs.

SEAMLESS INTEGRATION

LLED8000-LDS flawlessly integrates to the ceiling of two adjoining surfaces, ceiling to wall or wall to ceiling. The concealed extrusion is thoughtfully designed to create beautiful ambient lighting. LLED8000-LDS creates a very distinguished look in a design space and accomplishes an inviting atmosphere.
